Bill Bown
Bonneville Quarries, Inc.
842 West 400 North
West Bountiful, UT 84087

Dear Mr. Bown:

On September 4, 2007, this office received your amended plan of operations for expansion of the Lynn Springs Quarry prepared by the Shipley Group. We also received your revised maps on September 24, 2007, dropping the proposed expansion that was to be on BLM lands.

After reviewing the plan of operations, we have determined that the plan is complete enough to begin the environmental review under the National Environmental Policy Act.

Please let us know as soon as possible if you still plan to proceed with preparation of the environmental document by a third party contractor. As discussed with Barry Myers of the Shipley Group, a memorandum of understanding will need to be completed and the Forest Service will need to approve of your choice for the 3rd party contractor, which we are assuming will be the Shipley Group. Once this is completed, a meeting between the contractor and our staff specialists should be scheduled to go over what will need to be covered in the environmental review.

If you have any questions or comments, please contact Steve Flock, Minerals Management Specialist, at the above address or telephone number.

Sincerely,

SCOTT C. NANNENGA
Minidoka District Ranger
